Welcome

TO OUR 2022 PRIVATE TREATY BULL OFFERING

Whether you are bull shopping or not, we hope that this catalog is a road map of our program and paints a picture of our goals and objectives when mating these cattle. Regardless of what geographic region you live in, this year certainly brought it's environmental challenges to the beef cattle industry. While the market shows tremendous promise, it is more important now than ever to maximize the potential profitability of every cow we are able to run. At Innisfail, we believe selection based on accurate data collection in conjunction with genomics is a phenomenal toll, however, we still recognize longevity will always be the greatest enhancer of any cow-calf operation's profitability. However, we still recognize that longevity will always be the greatest enhancer of any cow calf operation's bottom line. All of these bull's mothers are great footed, tidy uddered, and highly fertile. Every cow herd has different goals — we feel there are enough different kinds of bulls in this offering to meet them, all while still having enough quantity within sire groups and cow families to meet orders with multiple bulls with high consistency. Please reach out to us to discuss the right bull for you, or better yet, come to Madison and see them for yourself!

WE GREATLY APPRECIATE YOUR INTEREST

in our genetics and invite you to come see the bulls and their mamas at the farm!

ALL BULLS SELL FULL POSSESSION AND 2/3 INTEREST UNLESS OTHERWISE STATED.

*EPDs listed in this catalog are current as of November 11, 2022.
Current EPDs and video links for all bulls available on our website.*

We couldn't be more excited about the rookie calf crop Trademark left us with. They offer the same body shape, functional build, and progressive data as 4013- just with improved calving ease, a darker color, and more consistent eye pigment. I could go on for days about this bull, but the progeny do the talking. The bulls look like bulls and the females look like females. We feel these sons offer big time potential for either registered or commercial producers.

There was a lot of debate on sale day 2021 about which brother people liked better — 1939 or 1943. We never could answer that question and used both bulls equally. 1943 has proven to offer explosive growth. His progeny posted the highest adjusted 205 day weights in our 2 year old group last year, with one particular heifer being the heaviest female on the ranch. These are a “cowboy kind” of beef bull that offer a rugged build and true performance. We liked them so much we purchased fall possession back on 1943 this year.

Genotype with Phenotype

DIRECT SONS OF T723

MATERNAL SIBS PROGENY OF T723

With 144 registered progeny, T723 is the most influential cow at Innisfail. She has sons and daughters hard at work from coast to coast, including Trademark and 4013. We have so much faith in what she has done in Madison that we have begun strategically line breeding her across the herd. These are high accuracy cattle that you should have faith do what their EPDs suggest.

These bulls are our vision of, "cattle of tomorrow, today." T723 has left us with a phenomenal group of daughters, and we are thrilled to begin to offer their progeny to you. The next 6 bulls are backed by the best young females in Madison, GA and sired by some of the more popular bulls in the country. Their unique combination of genotype with phenotype paints a picture of Innisfail's goals and objectives.

SIRE REFERENCE | EFBEEF X51 RESOLUTE C615

C615 sold in our last production sale to the Mohican operation. His daughters are mouthwatering and are standing the test of time. He is being utilized in our AI program harder then ever before because of his ability to generate cattle with good, consistent data and keep them extremely functional in their kind. We have seen no fallout in the C615s in production. These bulls all offer tremendous muscle shape, performance, foot quality, and marbling.

DAM REFERENCE | KJ 482Y LEADING LADY 871E ET

FULL SISTER | INNISFAIL VALID 871E 2158 ET

Here is a flush that we feel knocked it out of the park. They combine the power, performance, and great maternal qualities of 871e (the high selling female in our 2022 production sale to Day Ridge and P & J Farms) with the added carcass of Validated. A full sister to these bulls was selected by Boyd Meyer as the choice of our ET calf crop. She will be a member of our Pen of 3 heifers and on display in OKC.

DAM REFERENCE | PCC NEW MEXICO LADY 8170

8170 was purchased as the Foundation Female lot in Denver 2020. Not only did the funds go toward a great cause in supporting the youth, but we also gained a power cow that brings some extremely unique attributes to our breeding program. These are heavy muscled bulls with a stout foundation and big time structure and build.

Function is a true maternal bull with some of the nation's most potent cow families stacked in, that we brought into the program as an outcross via Pyramid Beef. He is very sensibly sized, huge bodied, perfect colored, and loaded with red meat. Named appropriately, Function's feet, joints, and angles are as good as it gets. His fertility data is extremely promising and the first calves on the ground are impressive.

When we left for OKC last year, I felt "Buford" 2047 was deserving of jumping on the trailer. He had lived with the rest of the bulls until scan day and arrived at the show barn late in life. Nonetheless, he was a great demonstration of our program — long bodied, great structured, with plenty of shape and mass, and a progressive set of figures. Our good friends Keaton Dobbs and Adam Harms came wandering down the isle and he hit them hard! The rest is history. The first 2047s are standouts in terms of early performance and pigment.

A close-up photograph of a brown animal's coat, likely a horse or cow, with a fine, textured pattern of hairs. The color is a rich, warm brown. Overlaid on the center of the image is the text "Thank You" in a large, elegant, white cursive script. Below this, in a smaller, white, all-caps sans-serif font, is the phrase "FOR YOUR INTEREST IN OUR PROGRAM!". At the bottom, four social media-style hashtags are listed in a smaller, white, all-caps sans-serif font, stacked vertically.

Thank You

FOR YOUR INTEREST IN OUR PROGRAM!
